EUROSOY GmbH is a leading international trading partner with extensive expertise in the plant-based protein market. The company supplies well-known food companies across Europe with soya protein isolates, soya protein concentrates and other plant-based proteins. All products are GMO-free. EUROSOY stands for high quality standards, absolute reliability, short delivery times, seamless logistics and specialist expertise for individual solutions. The ingredients are used in applications ranging from meat and dairy alternatives to bakery products and beverages, as well as confectionery, sports nutrition, delicatessen products and spice blends.
